The aim of the course is to prepare students for the move to senior English studies, providing extension and support for junior high school English studies.

Students will be introduced to key themes and ideas in a range of literary texts, and learn the foundational principles of effective academic and creative writing.

Students will complete a written task after each lesson for submission and individual feedback.

\$2 from each lesson fee is donated to the 'The Go Foundation', in partnership with the Australian Indigenous Education Foundation, providing Indigenous children access to quality education.
